

Test Results and Interview Guide

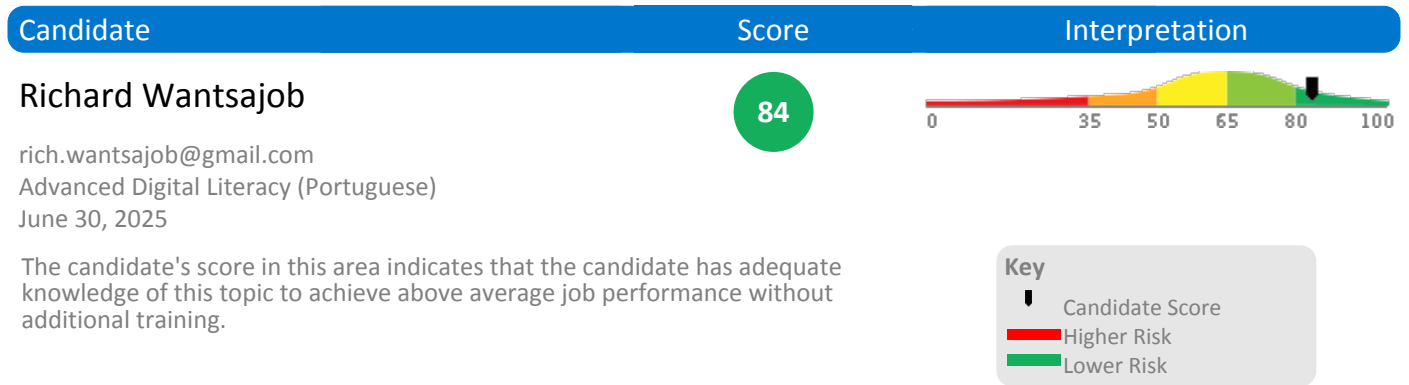

Candidate: **Richard Wantsajob**
Assessment: Advanced Digital Literacy (Portuguese)
Completed: June 30, 2025
Prepared for: Sara Maple
Example Company

What's Included

- Overall Score
- Competency Summary Table
- Comparison Matrix
- Detailed Competency Results with Interview Guide

Important Note: The Advanced Digital Literacy (Portuguese) assessment measures key factors related to high performance and tenure in this job. Attribute types measured vary by test, but can include cognitive ability, skills, knowledge, personality characteristics, emotional intelligence, and past behavioral history. This report includes a one page summary, followed by detailed results with an embedded interview guide. Note that these results should always be used as a part of a balanced candidate selection process that includes independent evaluation steps, such as interviews and reference checks.

Overall

Competency Summary

Comparison

Percentile scores indicate how the candidate compares to other test-takers within various groups. The candidate scored equal to or better than the fraction of test-takers indicated by the percentile.

Candidate: **Richard Wantsajob**, rich.wantsajob@gmail.com
 Assessment: Advanced Digital Literacy (Portuguese)
 Authorized: June 30, 2025, by Sara Maple, Example Company, qamailsaram.mike@hravatar.com
 Started: June 30, 2025, 7:48:59PM EDT
 Completed: June 30, 2025, 7:48:59PM EDT
 Overall Score: 84

Knowledge and Skills Detail

This section contains a list of job-related knowledge areas and skills that have been evaluated. Low scores in these areas often indicate that additional learning may be required before top performance can be achieved.

Detail

Interview Guide

Advanced Digital Literacy

Score: 84

Description:

An overall evaluation of the candidate's ability to find, evaluate, and clearly communicate information through various digital platforms in a business user context.

Interpretation:

Candidate should achieve superior job performance in this area with little or no training.

The candidate's score in this area indicates that the candidate has adequate knowledge of this topic to achieve above average job performance without additional training.

Describe how you feel your level of knowledge of the internet and computer will help you succeed in your role?

1

Admits low knowledge, or unable to describe how their knowledge will help them in role.

2

Describes how their knowledge will help them succeed in their role.

3

4

5

Describes how their knowledge will help them succeed in their role.

Tell us about a time when you failed to understand a digital/technology based task you were asked to do. How did you handle that situation?

1

They gave up or asked someone else to do the task.

2

They asked for help on how to do the task.

3

4

5

They took the initiative to research the task and learn how to do the skill needed to complete the task.

Identity Confirmation Photos

The following photos of the candidate and any identification were uploaded during the assessment session.

Photo Analysis Results

- Risk:	Medium risk of cheating based on image inconsistencies
- Percent match among processed faces	100%
- Total images processed	17
- Total images with valid faces	14 (82%)
- Total pairs of faces compared	13
- Pairs in which faces matched	13 (100%)

- Administrative Assistant, Innovative Business Solutions Ltd., 07/2019 – 03/2021

Other Qualifications

- Microsoft Office Specialist (MOS) Certification
- Certified Administrative Professional (CAP)
- International Association of Administrative Professionals (IAAP) Certification

Report Preparation Notes

- Hiring decisions should never be based on a single source of information. The most effective use of this assessment report is as a part of a multi-faceted program of candidate evaluation that includes resume review, interviews, and reference checks.
- Overall vs Percentiles Scores: The overall score reflects the success in the test, based on the mean (average) and standard deviation of the test scores. The percentile score reflects the percentage of test-takers who scored equal or below this overall score. We recommend you use the Overall Score as your primary evaluation criteria. However, percentile scores can often be useful in comparing specific candidates against one another and with a group, such as for test takers in a certain organization or within a certain account.
- Note that comparison information is calculated based on completed instances of this assessment at that time the assessment is scored. As additional instances are completed, the comparative data may change. You can always update a report to the current values by clicking on 'Recalculate Percentiles' within the online results viewing pages at www.hravatar.com.
- Most competency scores are norm-based, which means that they can be interpreted in terms of their distance from the average or mean score. For all scales, a score equal to the mean receives a score of 65 and scores above and below this value are set so that a score change of 15 equals one standard deviation.
- For linear competencies, higher is better across the entire scale. For these scales a score between 65 and 80 (light green) represents 0 to 1 standard deviation above the mean and a score above 80 (dark green) represents more than one standard deviation above the mean. Similarly, a score of 50 - 65 (yellow) represents 0 to 1 standard deviation below the mean, while a score of 35 - 50 (orange) equates to 1 to 2 standard deviations below the mean, and a score below 35 represents more than 2 standard deviations below the mean.
- Sim ID: 15884-1, Key: 0-0, Rpt: 68, Prd: 6735, Created: 2025-06-30 23:49 UTC
- UA: Mozilla/5.0 (Windows NT 6.3; Trident/7.0; Touch; rv:11.0) like Gecko

Score Calculation Detail

The following table provides a summary of how the overall score was calculated from each of the individual competency scores. First, all competency scores are calculated on a scale of 0-100. Note that some competencies use their color category rather than their actual numeric score in the overall calculation. For these, a standard score associated with the assigned color category is used in the overall score calculation rather than the actual numeric score. This is reflected in the "Score Value Used" column. Next, a weighted average of scores is computed using individual competency weights, typically set using job analysis data provided by the US Government Occupational Information Network (O*Net).

Competency	Score	How applied to overall	Score Value Used	Weight (%)
Advanced Digital Literacy	84.0438	Numeric Score	84.0438	100.0000
Weighted Average:				84.0438
Final Overall Score:				84
