

Test Results and Interview Guide

Candidate: **Richard Wantsajob**
Assessment: Specialist - Computer Network Support (Spanish)
Completed: October 26, 2024
Prepared for: Sara Maple
Example Company

What's Included

- Overall Score
- Competency Summary Table
- Comparison Matrix
- Detailed Competency Results with Interview Guide

Important Note: The Specialist - Computer Network Support (Spanish) assessment measures key factors related to high performance and tenure in this job. Attribute types measured vary by test, but can include cognitive ability, skills, knowledge, personality characteristics, emotional intelligence, and past behavioral history. This report includes a one page summary, followed by detailed results with an embedded interview guide. Note that these results should always be used as a part of a balanced candidate selection process that includes independent evaluation steps, such as interviews and reference checks.

Detail

Candidate: **Richard Wantsajob**, rich.wantsajob@gmail.com
 Assessment: Specialist - Computer Network Support (Spanish)
 Authorized: October 26, 2024, by Sara Maple, Example Company, qamailsaram.mike@hravatar.com
 Started: October 25, 2024, 9:21:14 PM EDT
 Completed: October 25, 2024, 9:21:14 PM EDT
 Overall Score: 76

Cognitive Abilities Detail

This section contains a list of job-related cognitive abilities that have been evaluated in a job-like context using simulation technology. Studies have demonstrated that cognitive abilities are highly correlated with job performance for many jobs. Abilities also correlate with problem-solving and the ability to learn quickly.

Detail Interview Guide

Analytical Thinking and Attention to Detail

Score: 96

Description:

This scale indicates both the capacity to think in a thoughtful, discerning way, to solve problems, utilize resources, analyze data, and apply attention to detail. Individuals who demonstrate high amounts of analytical thinking are able to recognize patterns rapidly, navigate through problems, and resolve difficult problems systematically. Individuals who demonstrate high attention to detail produce work products that are consistently accurate and require little checking. They rarely forget schedule commitments or overlook even the smallest details.

Interpretation:

High scores in this area correlate with superior performance for many jobs.

Able to think in a thoughtful, discerning way. Can often solve difficult problems, plan many-featured tasks and projects, organize multiple resources, and analyze complex data. Able to quickly recall and use information when needed or appropriate. Additionally, able to achieve a high degree of thoroughness and accuracy in a work task. Concerned for all areas involved. Work products require little or no review or checking to maintain consistency.

How do you handle a situation when you've messed up due to overlooking an important detail?

1

Is unable to handle the situation.

2

Demonstrates the ability to admit to their error and quickly fix the error, but didn't put preventative systems in place.

3

4

Demonstrates the ability to admit to their error, put preventative systems in place and quickly fix the error.

5

Personality Characteristics Detail

This section contains a list of personality characteristics that are frequently associated with job performance. Remember, these are not skills and do not indicate the ability to do a job. Rather, they can be used to evaluate the candidate's fit with the general needs of the job and the organizational culture. Sample interview questions are provided to gather more information.

Detail **Interview Guide**

Adaptability

Score: 62

Description:

This scale reflects how accepting a person is of frequent or substantial changes in his or her job requirements. Changing work requirements usually cause stress and put pressure on an individual to adapt. High scorers usually thrive under changing work conditions, while low scorers may burn out or become paralyzed. In more stable job circumstances, high scorers may become bored, while low scorers would remain satisfied.

Interpretation:

The candidate's score in this area indicates neither a positive nor a negative impact on performance.

Prefers a moderate amount of change in order to make progress. Feels too much change can be disruptive and undesirable. With coaching and reassurance is capable of remaining focused and positive throughout most change processes.

Even in a fast-changing environment there can be periods of relative calm and stability. How do you keep from getting bored during these slower times?

- | | | | | |
|-----------------------------------------------------------------------|--------|--------------------------------------------------------------------------------|--------|-------------------------------------------------------------------------------------------------------------------|
| ★ 1 | ★ 2 | ★ 3 | ★ 4 | ★ 5 |
| Candidate has no effective technique to keep them from getting bored. | | Candidate can explain one effective technique to keep them from getting bored. | | Candidate explains multiple effective techniques to keep them from getting bored. Shows they enjoy stability too. |

Integrity

Score: 10

Description:

This scale reflects the degree to which an individual acts positively towards the organization, avoids unnecessary risk, and, simply put, does the right thing. High scores on this scale indicate a person will act in the organization's best interest, follow the rules, and work hard under limited supervision. Low scores on this scale indicate a person may engage in risk-taking behaviors, work to undermine the organization, and only do the bare minimum.

Interpretation:

The candidate's score in this area indicates risk of a negative impact on performance for some jobs. Additional probing is strongly recommended.

Distrusts the organization and management. Frequently assumes new ideas or changes will have a negative individual impact. Can be defensive regarding his or her own work, or show hostility towards management or company policies. May take unnecessary risks on the job.

Describe an ideal person who has high integrity. What traits does that person have that set them apart?

- | | | | | |
|---------------------------------------------------------------------------|--------|-------------------------------------------------------------------------------------------------------------------|--------|------------------------------------------------------------------------------------------------------------------------|
| ★ 1 | ★ 2 | ★ 3 | ★ 4 | ★ 5 |
| The person: (1) does the right thing even under challenging circumstances | | The person: (1) does the right thing even under challenging circumstances, (2) is honest OR has strong principles | | The person:(1) does the right thing even under challenging circumstances, is (2) honest, and (3) has strong principles |

Detail

Interview Guide

Drive

Score: 70

Description:

This scale reflects the degree to which an individual will work hard to achieve goals and solve critical problems in the organization. High scores on this scale indicate a person will be diligent in their work and use all necessary sources to solve problems. Low scores on this scale indicate a person may be unenthusiastic about work and may struggle with complex tasks and challenges.

Interpretation:

The candidate's score in this area should contribute to enhanced overall job performance.

Motivated by challenging goals and tasks, financial reward, and/or recognition, and willing to work hard to succeed. Focused on understanding and following guidelines, personal achievement, and meeting or exceeding quality and production standards.

How do you respond when the going gets tough and it seems like you and your team are facing a nearly impossible task?

1

They are unenthusiastic. They respond by working to their expectations or less due to being overwhelmed.

2

Their feelings are neutral. They respond by working hard to achieve the goal.

3

4

They are enthusiastic. They respond by working hard to achieve the goal and by using all necessary sources.

5

Detail

Interview Guide

Resilience

Score: 67

Description:

This scale reflects the degree to which an individual can withstand adversity, bounce back from difficult events, and be persistent in doing work tasks despite difficulties that come their way. High scores on this scale indicate a person will likely be able to deal with difficult situations with ease, perceive they have control over events in their life, and continue to push forward to achieve goals. Low scores on this scale indicate a person may claim that mistakes/failures were out of their control. Low scorers tend to not cope well with on-the-job stress and don't put in the extra effort to achieve success when obstacles come their way.

Please note that resilience is not a fixed trait. Unlike many other personality characteristics, resilience can be developed over time. Additionally, multiple factors can influence how resilient a person is within a specific situation. In recognition of these features, additional probing using suggested interview questions is strongly recommended.

Interpretation:

The candidate's score in this area should contribute to enhanced overall job performance.

Responses indicate that the candidate can effectively work through difficulties at work by exhibiting positive emotions and the ability to take control of events. Candidate can likely push forward to achieve their goals, even when obstacles come their way.

How do you normally react to bad news?

They get upset and don't know how to work through the challenges.

They get upset, however they see the positive outlook and have a plan to fix the challenges.

They are able to see the positive outlook in the long run and it doesn't impact their work.

Detail

Interview Guide

Teamwork

Score: 69

Description:

This scale reflects the degree to which an individual works well with teams and maintains positive interpersonal relationships. High scores on this scale indicate a person will thrive in collaborative team settings and maintain high-quality relationships with coworkers. Low scores on this scale indicate a person will prefer working on individual projects and may struggle to maintain close working relationships with colleagues.

Interpretation:

The candidate's score in this area should contribute to enhanced overall job performance.

Actively cultivates relationships. Comfortable meeting new people and sensitive to how others feel. Works with colleagues and seeks input to develop friendships and meet goals.

Describe a time when you were faced with a conflict while working on a team. How did you handle it?

1

They are unable to appropriately handle conflicting circumstances while working on a team.

2

They are able to handle conflicting circumstances by being a team player, showing empathy, OR problem solving as a group.

3

4

They are able to handle conflicting circumstances by being a team player, showing empathy, AND problem solving as a group.

5

Emotional Intelligence Detail

This section contains a list of emotional intelligence characteristics that indicate how tuned in a candidate is to his or her own emotions, and those of others, as well as the candidate's ability to control his or her behavior in light of the emotions he or she is experiencing. These traits can often impact performance in groups or teams. Sample interview questions are provided to gather more information.

Detail **Interview Guide**

Empathy and Emotional Self-Control

Score: 64

Description:

This scale reflects both the ability to sense and understand other people's feelings, feel sympathy for others, and see things from other people's point of view, and the ability to manage the desire to satisfy urges or impulses, showing restraint and managing behaviors to ensure appropriate and effective interactions with others.

Interpretation:

The candidate's score in this area indicates neither a positive nor a negative impact on performance.

Demonstrates moderate strength in sensing the emotional needs of others, sympathizing with other people's problems, and seeing things from other people's point of view. Likely to generally be effective at demonstrating to customers or coworkers that they understand and care about them, maintaining current levels of customer loyalty, work relationships, and conflict in the workplace.

How well can you sense how others around you are feeling? How do you use this information when interacting with them?

1

Demonstrates that they are unable to sense how others around them are feeling.

2

Provides examples on how they are able to sense other's feelings. They don't use this to show understanding and care.

3

4

Provides examples on how they are able to sense others' feelings. They use this to show they understand and care about them.

5

Scored Survey Detail

This section provides additional detail on the candidate's scored survey responses. Potential caution areas (if any) are specified in each detail section.

Detail **Interview Guide**

History Survey - Performance

Score: 70

Description:

Evaluates elements of the candidate's past work and education history to identify indications of high or low performance potential.

Exhibits past behaviors and achievements that are likely to result in significantly below average job performance. Additional probing in this area is highly recommended.

1

No examples or rationale given.

2

Weak connection between past and future.

3

4

Clear connection between past and future.

5

Detail

Interview Guide

**History Survey -
Tenure**

Score: 68

Description:

Evaluates a candidate's past employment history and related factors for indications of potentially low job tenure.

What are some of the reasons you have left previous jobs?

1

Many different reasons. Blames employer.

2

Circumstances for leaving generally credible or somewhat outside control.

3

4

Reasonable rationale or circumstances clearly outside control.

5

Identity Confirmation Photos

The following photos of the candidate and any identification were uploaded during the assessment session.

Photo Analysis Results

Report Preparation Notes

- Hiring decisions should never be based on a single source of information. The most effective use of this assessment report is as a part of a multi-faceted program of candidate evaluation that includes resume review, interviews, and reference checks.
- Overall vs Percentiles Scores: The overall score reflects the success in the test, based on the mean (average) and standard deviation of the test scores. The percentile score reflects the percentage of test-takers who scored equal or below this overall score. We recommend you use the Overall Score as your primary evaluation criteria. However, percentile scores can often be useful in comparing specific candidates against one another and with a group, such as for test takers in a certain organization or within a certain account.
- Note that comparison information is calculated based on completed instances of this assessment at that time the assessment is scored. As additional instances are completed, the comparative data may change. You can always update a report to the current values by clicking on 'Recalculate Percentiles' within the online results viewing pages at www.hravatar.com.
- Most competency scores are norm-based, which means that they can be interpreted in terms of their distance from the average or mean score. For all scales, a score equal to the mean receives a score of 65 and scores above and below this value are set so that a score change of 15 equals one standard deviation.
- For linear competencies, higher is better across the entire scale. For these scales a score between 65 and 80 (light green) represents 0 to 1 standard deviation above the mean and a score above 80 (dark green) represents more than one standard deviation above the mean. Similarly, a score of 50 - 65 (yellow) represents 0 to 1 standard deviation below the mean, while a score of 35 - 50 (orange) equates to 1 to 2 standard deviations below the mean, and a score below 35 represents more than 2 standard deviations below the mean.
- This assessment makes use of data from the Occupational Information Network (O*NET), which is funded by the U.S. Federal Government - U.S. Department of Labor/Employment and Training Administration (USDOL/ETA) - as a primary source of occupational information. The O*NET database contains information on hundreds of standardized and occupation-specific descriptors that are continually updated by ongoing research. These data are used in preparing descriptive information as well as setting relative weights between competencies used in calculating the overall score. For additional information about O*NET, visit <http://www.onetcenter.org>.
- O*Net Standard Occupational Code (SOC) Used: 15-1231.00
- O*Net Version: 26.3
- Sim ID: 16319-1, Key: 0-0, Rpt: 91, Prd: 7319, Created: 2024-10-26 01:21 UTC
- UA: Mozilla/5.0 (Windows NT 6.3; Trident/7.0; Touch; rv:11.0) like Gecko

Score Calculation Detail

The following table provides a summary of how the overall score was calculated from the individual competency scores. Competency scores are calculated on a 0-100 scale by first calculating a Z statistic based on test-taker responses and then transforming the Z value to a scale with target mean and standard deviation. Certain competencies have a normal score distribution where it is best to be closest to the mean. For these competencies we modify the Z statistic by multiplying its absolute value by minus 1 for the overall score calculation. Next, to calculate the overall score, a weighted average of all modified competency Z statistics is computed and this weighted average is itself transformed to a Z statistic, which is then transformed to a score with the same target mean and standard deviation. Finally outlier scores are adjusted if they are below 0 or above 100.

| Competency | Score | How applied to overall | Score Value Used | Weight (%) |
|-------------------------------------------------|---------|------------------------|------------------|------------|
| Adaptability | 62.9072 | Z-Statistic | -0.1395 | 5.9091 |
| Empathy and Emotional Self-Control | 64.5172 | Z-Statistic | -0.0322 | 8.1610 |
| History Survey - Performance | 70.7852 | Z-Statistic | 0.3857 | 8.1610 |
| History Survey - Tenure | 68.4928 | Z-Statistic | 0.2329 | 8.1610 |
| Integrity | 10.0000 | Z-Statistic | -3.6667 | 6.2125 |
| Drive | 70.4254 | Z-Statistic | 0.3617 | 6.1590 |
| Analytical Thinking and Attention to Detail | 96.3243 | Z-Statistic | 2.0883 | 44.7579 |
| Resilience | 67.0898 | Z-Statistic | 0.1393 | 6.1590 |
| Teamwork | 69.2632 | Z-Statistic | 0.2842 | 6.3197 |
| Weighted Average of Competency Z-Scores: | | | | 0.7953 |
| Mean applied to Raw Weighted Avg: | | | | 0.0000 |
| Standard Deviation applied to Raw Weighted Avg: | | | | 1.0000 |
| Normalized Raw Score: | | | | 0.7953 |
| Mean: | | | | 65.0000 |
| Standard Deviation Used: | | | | 15.0000 |
| Final Overall Score: | | | | 76.9296 |
